V. Conclusion

Women's Care Center at Notre Dame Ave has been serving the needs of women in unexpected pregnancies in the local community for over 31 years. An example of this care and support is described below:

Janice found Women's Care Center on the internet when she was looking for information on chemical abortion. Finding our website, she e-mailed a counselor who encouraged her to come to our Notre Dame Avenue center for a pregnancy test. When Janice came in she said that if her test was positive she would have an abortion because her boyfriend lied to her. She had recently discovered that he was homeless, unemployed, had three other children he did not support. She felt foolish. Janice's other

children are grown and she knew that she did not have the energy to do it again, this time alone.

When the test came back positive, Janice cried. She did not want to continue the pregnancy and felt it was early enough that there would not be a "life". Her counselor explained fetal development and informed her that the baby's gestational age was about 5 weeks. Janice felt torn between choosing a life she did not want to live and accepting the life growing inside her.

Janice came in for an ultrasound a few days later and saw the heartbeat of her 5 week 4 day old baby and was amazed how big her baby was. She chose life.

She continued with our programs; attending 25 parenting classes and individual goals sessions. Robbie, her boyfriend, has also participated in parenting classes and goal sessions. Both have made significant progress in their relationship, as well as personal lives. Robbie is now working and is financially supportive. Janice is due in 2 weeks.

V. Conclusion

Women's Care Center at Ironwood Drive has been serving the needs of women in unexpected pregnancies in the local community for over 20 years. An example of this care and support is described below:

Rachel learned of her pregnancy when her mom took her to the Emergency Room suffering with terrible abdominal pain. Although Rachel herself was adopted, her mom strongly encouraged her to abort. Rachel comes from a prominent family, and she is a nursing student. An unplanned pregnancy was out of the question. Her mom initially called Women's Care Center and our counselor told her that we do not provide abortions but offered an ultrasound and supportive counseling. Rachel's mom made the appointment hoping that it would help her daughter make an informed decision about her pregnancy. Together, Rachel and her mom came to the Women's Care Center on Ironwood Circle. After receiving an ultrasound and supportive counseling, Rachel was amazed by the development of her 9 week baby. She knew that she would never abort. Rachel wanted her baby to have the same life she did, with two

parents who were able to care for and support her. So she asked about adoption. Teresa, Rachel's Women's Care counselor, connected her with a supportive adoption agency.

Throughout her pregnancy, Rachel and her mom attended weekly counseling sessions covering pregnancy, labor and delivery. She celebrated her 21st birthday at Women's Care Center with her counselor. In that simple celebration, Rachel says she knew that her counselor truly cared about her.

Rachel delivered a beautiful baby girl with the adoptive parents in the room.

Every Sunday her baby's family calls and texts her pictures. Some days are still hard. On those days she pulls out her daughter's photo album and thinks about how happy her baby is, and knows that she made a great parenting choice.

V. Conclusion

Women's Care Center at Chapin Ave has been serving the needs of women in unexpected pregnancies in the local community for over 23 years. An example of this care and support is described below:

When Emma walked into our office on Chapin Street for a pregnancy test, she was clearly nervous. Emma had her mom to drop her off at the grocery store across the street because she didn't want her to know that she might be pregnant. As a 19 year old college student from a religious family, she knew her mom would be disappointed and angry. Her boyfriend said that he wasn't ready for a baby. She didn't believe in abortion, but she was still thinking about having one because, 'this was too much to deal with'. When her test came back positive she was very emotional. Her counselor sat with her, listening to her fears, and encouraging her to take time to make a decision she felt good about. Before

Emma rushed back across the street to meet her mom at the grocery store she made a follow-up appointment at Women's Care Center.

When Emma arrived for her follow-up appointment, she was still seriously considering having an abortion. Her boyfriend had called the abortion clinic and made an appointment for Emma, wanting her to get it over with as soon as possible. She laughed and cried when she learned that her baby was due on her own birthday.

Strengthened by the support of Women's Care Center, Emma found the courage to tell her grandmother about the pregnancy and then her parents. They are supportive, and Emma now knows that they will always be by her side. Although her boyfriend was initially upset, he has come to love the baby. Emma started a job and her boyfriend found a better job to support the baby.

Emma has kept all of her appointments at Women's Care Center – 7 so far, each time feeling more confident and excited. She is ready to start goals counseling and attend parenting classes. She is 25 weeks 4 days pregnant today.

V. Conclusion

Women's Care Center at Mishawaka has been serving the needs of women in unexpected pregnancies in the local community for over 25 years. An example of this care and support is described below:

When Amanda walked through the doors of Women's Care Center in Mishawaka the first time, she burst into tears. Amanda was pregnant with her first child and upset and confused about why her boyfriend wasn't happy. Her counselor sat with her, listening to her fears, comforting her, and helping her create a positive plan for her pregnancy.

Throughout her pregnancy, Amanda faithfully attended weekly goals counseling sessions and attended parenting classes. Even though she worked full-time, she completed every pregnancy related goal program, including Newborn Care, Breast Feeding, and Labor and Delivery, earning 320 diapers and many other baby items.

Although Amanda did everything she could to prepare for her baby, her relationship with her boyfriend consumed much of her energy and ate away at her confidence. After many months of unhappiness with her on again / off again relationship with the baby's verbally and sometimes physically abusive father, Amanda found the confidence and support she needed to leave for good. Amanda moved in with her supportive parents.

Last month Amanda, now a confident young mother, brought her adorable 10 lb 1 oz newborn daughter into Women's Care Center. Amanda shared her birth story and thanked her counselor for all the support and encouragement she provided during her pregnancy saying "I don't know how I would have gotten through this without you guys."
